

## WHY?

### Bringing Politics Back to the People

Are you frustrated with politics controlled by special interests, big money, and top-down control that ignores the voters? So are we!

What you didn't know is that there is already a system in place that is designed for the most local, grassroots approach to politics, that if used properly, will bring the entire process back to the people and make it virtually impossible for a small group of establishment players to control the process.

That is the local committee system.

If we are ever to get control of our government and change the type of people we get into office and the control that big-money currently brings, we must get directly and actively involved at the grassroots level in the two-party system.

It is not going to be easy, and it is not going to change overnight. But without this approach, we are simply reshuffling the chairs on the deck of the Titanic. Do we just want the furniture to look better before we crash into the iceberg, or do we want to right the ship and prevent it from sinking?

 was organized to activate concerned citizens to become involved in their neighborhoods in order to impact the election process by identifying and registering conservative voters of all stripes, encouraging and facilitating the election of conservative candidates to public office, with specific emphasis on committeeman and committeewoman positions and building and maintaining a database of conservative voters in order to build a cohesive block of conservatives who can act in a unified fashion in order to impact issues, legislation and elections in the State of Missouri. MOPP is listed on the American Majority website as a recognized precinct project organization Missouri ([www.precinctproject.us](http://www.precinctproject.us)) and is also proud to be a member of the Missouri Conservative Coalition ([www.moccnw.com](http://www.moccnw.com)) and Citizens Alliance of Missouri Patriots /CAMP)

## WHAT?

's goal is to encourage fellow Missourians to become engaged in their communities, on a local level. MOPP believes that the authority to govern flows from the "bottom up" NOT from the "top down".

### 's 4-pronged strategy...

- Identify and fill the 40-50% of the approximately precinct/township committee positions in their county/statewide that go unfilled .
- Get out the CONSERVATIVE vote.  encourages its members to utilize our database to canvass their neighborhood to identify and register conservative voters, educating voters on issues and candidates and getting them to the polls on election day.  also partners with "Champion The Vote" ...a project that works to register unregistered Christian voters via their database at... [www.championthevote.com](http://www.championthevote.com).
- Encourages becoming a poll worker in order to help stop voter fraud.
- Build and maintain a database in order to form a more effective coalition/united voice for conservatives across the State.

## HOW?

### Educate and motivate utilizing...

- Meetings
- Seminars/Training Sessions
- Training /How To Manuals
  - E-Newsletter
  - Blast Emails
  - Action Alerts
- Group Presentations

## WOULD YOU LIKE TO KNOW THE "SECRET WEAPON"...

and one of the primary tenets of the Missouri Precinct Project in taking our country back?? ...getting constitutional conservatives to fill the 30-40% of the precinct/committee person positions that go unfilled statewide (and indeed nationwide).

"In the U.S., the 50 states are each subdivided into counties, which combined number over 3,000. Each of these over 3,000 counties is further subdivided into precincts (sometimes known as wards, townships, parishes, etc.).

The voting precinct is the smallest administrative/political subdivision in our federal system. In densely populated urban areas, a precinct may contain but a few city blocks. In rural areas, a precinct may contain many square miles. Population number determines the size of a voting precinct. There are usually between 200 and 500 voters in an average precinct. There are approximately 300,000 precincts in the United States of America."

"Why are the party leaders in your county important? Party county committee leaders have a decisive influence over how votes are counted. Party county committee leaders also have a decisive influence over which candidates receive the party's endorsement.."

As stated above, 30-40% of these county precinct/committee member positions go unfilled. A campaign for the office of party county precinct/committee co-chair is easily run, and often, easily and inexpensively won. The MOPP precinct strategy is to fill these unfilled positions with Constitutional conservatives...this is the only way we can "infiltrate" the system so it will reflect our constitutional principles and values.

While the Tea Party groups and the 912 groups, etc. -- have held magnificent rallies -- rallies, attending town meetings, and letter writing are ultimately DEFENSIVE strategies. BUT...the Precinct Strategy is an OFFENSIVE strategy through which total victory can be achieved. Defensive strategies by themselves have NO CHANCE OF WINNING against the well-entrenched forces destroying our country in Washington D.C. This is why all concerned Americans must add the precinct strategy to their personal action plan.

 encourages you to get involved in your community...find out which positions are open...find out how you can "qualify" for these positions and then run to fill them!
